

In the Specification

In response to the Examiners objections to the specification, applicant has amended the specification as suggested by the Examiner. Specifically, paragraph [0010] has been amended the specification to change the referenced bone conduction microphone 4 to bone conduction speaker 5 to correct an obvious typographical error.

[0010] Preferred embodiments for carrying out the present invention will be described with reference to the accompanying drawings. As shown in Fig. 1, a talking device 1 using a bone conduction speaker 5 of the present invention is constructed of: a head portion 2 of a pendant in which portion 2 both a bone conduction ~~microphone 4~~ speaker 5 and a wireless circuit are incorporated; a buckle portion 3 in which an air conduction microphone 6 is provided; and, a strap 4 detachably mounted on the above buckle portion 3. A battery may be additionally incorporated in the head portion 2 of the pendant.

In view of the above, applicant believes that such is sufficient to overcome the objection and an action acknowledging same is respectfully requested.
